

Dear FCC,

K-Love serves me in so many amazing ways. K-Love helps me to relax when times become so stressful, gives me encouragement when I feel I am going to fall hard, and provides me with news updates about what is going on in the world we live in. If K-Love is taken off the air, many will start to lose their hope, encouragement, and wisdom that K-Love provides. Nothing can replace K-Love. K-Love is full of life and knowledge. It keeps us going strong. We need K-Love on the air, not just in my community, but all over the world. Do not take away from people's hope and faith. We need all of the things K-Love provides us, more so even now because of the times we are living in. Please look to your hearts and keep K-Love heard all over the nation, not just in my community.

Thank you,

Melissa Skelnik
